HER STORY

It all started when Fareedah was 13 years old and she opened up an internet chatroom for the first time and was quickly met with the reality of predators and stalkers. Years later she would find herself working in Threat Intelligence and Cybersecurity Awareness and helping the non-tech-savvy protect themselves online. Because of the uptick in online crimes against children in the pandemic, she started the Safe Kids Movement to help mothers protect their kids online. This movement is dear to her heart given her own experiences as a child. Today, her 2021 mission is to help 1,250+ parents protect their kids online.

TESTIMONIALS

“Fareedah is the GOAT in cybersecurity because she's on the cutting edge of what's happening NOW. She makes the "tech stuff" easy for entrepreneurs and gives you simple steps and processes to SECURE YOUR FAMILY AND BUSINESS the right way. She also has a simple system to TRAIN YOUR TEAM so that they are keeping you secure on the back end. A true one-stop solution for the security of your life and business.

“Fareedah knows what she's talking about and is phenomenal at what she does! She delivers vital information in the membership that's easy to take action on. It's made me even more aware of what a hacker can do if I'm unprotected. Yikes! You may think you're protected...but you need to hear what she has to say! I've done research on security because I have a 6 year old gamer who plays every weekend. She's given helpful suggestions on how to keep him safe and that means EVERYTHING to me as a Mom. It's comforting to know she's a gamer too, so I know she understands!

EVE D HERNANDEZ
A MOM AND CEO OF GIRL BE HAPPY, LLC

“SKM has provided an educating and enlightening overview for keeping my grandkids safe out in these online streets. I love that the information was digestible and in laymen terms for me to absorb the material without the need to Google everything. The resources were a game changer and the step by step tutorials has changed the way I skip / scan through the "next" button to get it over with. I now take the time to review the info & select the appropriate reply in an informed manner. SKM will reduce your fears & empower your approach to doing anything in the online space. Thank you Fareedah!

JOSETTE MILLS

“She had me looking at my systems in a completely different way! I never thought I needed to look into cybersecurity! You should definitely reach out to Ms. Fareedah to get her expertise and to really understand how to protect yourself online. She is amazing!!!! She is truly the cybersecurity expert!

STACEY SUTTON AMES
LEADERSHIP & BEHAVIOR STRATEGIST

“We all left feeling empowered and inspired. She knows how to take a topic that many avoid - cybersecurity. She was able to make it real and relatable for our Moms and their daughters. Everyone walked away with a toolbox of information.
